## REMARKS

### ***Summary of Amendments***

Claims 5 and 6 have been canceled.

Claims 1-4, which have allowed, remain as they were pending the Office's August 19, 2008 action. That is, claims 1-3 remain in their original form as filed, while claim 4 remains as modified by Applicant's February 14, 2006 preliminary amendment to eliminate its multiple dependency.

In the specification, the title has been revised as required by the Examiner.

### ***Drawings***

A drawing replacement sheet attached to this paper corrects Figs. 3A and 3B, as required by the Examiner, by a redrawing of the line indicating the upper limit of the thickness  $T_2$  so that the line is in the correct position, on par with the upper side of the spacers 12.

### ***Specification***

The title has been amended as required by the Examiner, although the amended title is slightly altered syntactically over the revised title kindly suggested by the Examiner.

### ***Claim Rejections – 35 U.S.C. § 112***

Claims 5 and 6 were rejected under § 112 for indefiniteness. Claims 5 and 6 have been canceled, thus rendering this rejection moot.

### ***Claim Rejections – 35 U.S.C. § 102***

Claims 5 and 6 were rejected under 35 U.S.C. § 102(b) as being anticipated by U.S. Pat. No. 6,172,382 to Nagahama et al. As just noted in addressing the § 112 rejection, claims 5 and 6 have been canceled, rendering moot this rejection as well.

### ***Allowable Subject Matter***

Applicant gratefully acknowledges that claims 1-4 are allowed, and appreciates the Examiner's statement of reasons for the indication of allowable subject matter.

**Conclusion**

Inasmuch as the claims that remain pending have been allowed, this application should be in condition for allowance. Withdrawal of the rejections is requested and the issuance of a Notice of Allowability at an early date is solicited.

Respectfully submitted,

November 12, 2008
